Outer rects	R5-r6 without white or whitish	R5-r6 with small and indistinct white patches (Fig. 262-A, p.458)	R5-r6 average larger and more distinct white patches (Fig. 262-B, p.458)

Notes:

1. Easiest to age birds before sexing.
2. All age/sex criteria should be combined for reliable determinations.
3. Some intermediates will not be reliably aged and/or sexed.
